PROFESSIONAL SUMMARY

Laravel Developer with over 3 years of experience in Laravel, specializing in building APIs and web applications. Proficient in front-end development using Laravel, and Blade Templating, with growing expertise in Vue.js through the Laravel + Inertia.js stack. **Seeking a full-time, long-term role in a collaborative team where I can provide my technical skills to contribute to the growth of the company while continuing to grow professionally.**

CAREER HIGHLIGHTS

Contributed to Laravel web application and website projects

AladdinPRO - a document expiry reminder application (aladdinpro.com, app.aladdinpro.com)

Duties:

Served as a fulltime Laravel developer responsible for maintaining and expanding the entire SaaS application for 1 year and 9 months

- Laravel (PHP MVC Framework) & MySQL: Core application development, database design, and management
- HTML, CSS, jQuery: Front-end UI development
- 2Checkout & PayPal: Integrated payment gateways for subscriptions
- JWT Authentication: Secure API development for Android and iOS apps
- Cron Jobs & Linode (Linux Server): Scheduled tasks to send document expiry reminders, application hosting, deployment, and server maintenance

Magellan Capital - Laravel Website with CMS features

https://www.magellancapital.com/

Tech Stack:

- **Laravel** V ^11.0 (with Laravel Breeze for authentication) , **Database**: MySQL
- **Frontend**: Blade templating engine, HTML, CSS & JavaScript

Duties:

- Developed the application using Laravel and MySQL
- Implemented authentication using Laravel Breeze
- Managed database migrations.
- Collaborated with a UI/UX designer and converted designs into a functional Laravel-based frontend
- Built CMS features for managing content and SEO settings
- Deployed the website to the production server
- Created user documentation for managing the CMS

- **Laravel Website Development - Government-Supported Wellness Initiative, Middle East (Under NDA)**
- **Homepage Revamp for Laravel Website & Maintenance - UAE Based Car Care Company (Under NDA)**

Tech Stack:

- Laravel V ^10.10 (with Laravel Breeze for authentication)
- Frontend: HTML, CSS, JavaScript (client-provided static design)
- Blade templating engine, Vite (for asset bundling and optimization)

Duties:

- Developed CMS to manage dynamic content (services, news, programs) and integrated it into a client-provided HTML design.
- Used Laravel Breeze for authentication. handled database migrations for scalable content structure.
- Provided internal documentation and support to the project manager.
- Project details limited due to NDA with the client.
